EDUCATION

Sabanci University

(BSCS) Computer Science and Engineering (Senior)

Minor Program in Business Analytics · 50% Merit-Based Scholarship · Dean's List High Honors

Istanbul, Turkey

Expected Graduation: June 2027

Jordanian International School

High School Diploma

Amman, Jordan

Graduated: June 2023

The International School of Choueifat

Primary and Middle School

Riyadh, Saudi Arabia

EXPERIENCE

EastNets

Data Scientist Intern — Anti-Money Laundering (AML)

Amman, Jordan

Jun 2026 – Sep 2026

- Worked end-to-end on an Anti-Money Laundering detection model, covering the full development lifecycle from raw transaction data to a deployable classifier.
- Performed data cleaning, preprocessing, and feature engineering in Python (Pandas, NumPy) on transactional datasets to surface suspicious-activity signals.
- Built and evaluated classification models for flagging high-risk transactions, tuning for precision/recall trade-offs relevant to a financial compliance setting.

Freelance - Software Development, AI Services & AI Content Creation

Software Developer & AI Services / Content Creator

Remote

2025 – Present

- Built and delivered websites, mobile apps, backend systems, APIs, and AI-powered solutions for several freelance clients across different business needs.
- Provide AI services including workflow automation, chatbot development, AI integrations, and custom software solutions tailored to client requirements.
- Create AI-generated videos, social media creatives, and marketing assets for several clients.

TechChef (SAP Analytics Cloud Team)

Data Analyst and Custom Widget Developer Intern

Amman, Jordan

Jun 2025 – Aug 2025

- Built custom SAC widgets using JavaScript, HTML, and CSS.
- Delivered two production-ready widgets independently and received a recommendation letter.

SELECTED PROJECTS

SneakerNest — Full-Stack E-Commerce Platform

Software Engineering Project

Jan 2025 – May 2025

- Built a scalable e-commerce system using React, Node.js, Express.js, MySQL, and Docker.
- Designed secure REST APIs and database schema while leading sprint planning as Scrum Master.

SU Learning Companion — Mobile App for Sabanci University

Mobile Application Project

Sep 2025 – Jan 2026

- Developed a cross-platform mobile app using Flutter, Dart, and Firebase as a Project Coordinator.
- Built to help students stay organized with course tracking, reminders, flashcards, and productivity tools.

AI for Accessibility — iOS Navigation App

Mobile Application Project

Jan 2025 – May 2025

- Developed an iOS app in Swift for visually impaired users.
- Integrated YOLO-based object detection, audio feedback, and gesture controls using CoreML and Xcode.

Data Science Research — Unemployment & Crime in the U.S.

Data Science Project

Feb 2025 – May 2025

- Performed EDA, hypothesis testing, and statistical modeling in Python.
- Built Random Forest and Linear Regression models; project selected as a sample reference for future courses.

VOLUNTEER WORK & ACTIVITIES

Sabanci University Civic Involvement Projects — Environment Care

Oct 2023 – Jan 2024

Model United Nations (MUN) — Jordanian International School

Sep 2021 – Jun 2023

Professional Football Player — Gothia Cup, Dana Cup, Jordanian Youth League

2018 – 2023

SKILLS

Technical: Python, C++, JavaScript, SQL, HTML, CSS, React.js, Node.js, Express.js, Flutter, Machine Learning, Data Analysis, Statistical Modeling, PyTorch, scikit-learn, YOLO, Git/GitHub, Docker Compose, JIRA, Firebase, Data Science, Databases, Java, Figma.

BI / Analytics: SAP Analytics Cloud (custom widget development), Matplotlib, Seaborn, Pandas, NumPy.

Interpersonal: Adaptability, Leadership, Organization, Presentation, Teamwork, Time Management.

Languages: English (Fluent), Arabic (Native), Turkish (Elementary).
